ANOTHER ENGLISH TOUR.

Augusta Daly to Take His Company to London, Next Spring.

Chicago, Ill., June 23.—Augusta Daly is completing arrangements to take his company to London next spring. Although it has not yet been definitely settled, it is now expected that the company will play there next April or May. Mr. Daly has received several offers to return with the company and play this summer at the Court, the Gaiety, and several other houses. Mr. Hollishead and Mr. Terrie were among the managers who expressed themselves as willing to share the risks "I decided, however, to remain in this country for the present," said Mr. Daly, "and to make the second entrance of the company on London boards more opportunely timed than the first. When we went there before, it was when every one was leaving the city for the country. Our success, nevertheless, was distinguished by an English and an American one, as some papers here have represented. Our countrymen in London really did not come in numbers until the success of the venture was assured by the attendance of the Londoners themselves. As for the first night, which has been so much talked about, it was not more than forty Americans in the house. I had expected that Miss Anderson, with whom I am acquainted, would be present, but was disappointed in both cases. When we go to London next season, we will produce all our latest New York successes." Mr. Daly expressed himself as highly gratified with the pronounced success achieved by the company this summer in Chicago. The statement is also made that a local man has previously been secured for the erection of a large theater and club house, for the presentation of German drama and opera in this city. Mr. Amburg of the Thalia Theater of New York is supposed to be the man who has secured the building. The statement is also made that the present project had advanced so far that an available piece of property, centrally located, was under consideration as the site of the new house. He placed much reliance upon the enterprising spirit of the wealthy Hebrews of this city. The Standard Club is understood to have subscribed a large amount for the undertaking on this point. Mr. Amburg could give no

His friends have moved in the matter, and he has received a telegram from Omaha announcing that the Bohemians of that city have called Mr. Bishop of Prague, and a leader of the majority in the Imperial Parliament, asking him to see Count Tschirsky and press him for a withdrawal of the objections to Mr. Jonas. TEN MILLIONS SHORT.

Falling Off in the Estimates in Uncle Sam's Receipts.

WASHINGTON, D. C., June 23.—The fiscal year ends June 30, and, according to the receipts from internal revenue, customs, and miscellaneous sources, the falling off in the estimates for the year will be about \$10,000,000—\$4,000,000 in the internal revenue, \$4,000,000 in customs and \$2,000,000 in the miscellaneous. The expenditures have been greater for pensions and miscellaneous than was anticipated, so that the surplus for the fiscal year will probably be between \$10,000,000 and \$20,000,000 less than was calculated by Secretary McCulloch in his report to Congress last year, leaving the surplus at about \$20,000,000 instead of \$30,000,000.
